

November 25, 2009

Dear Parents/Guardians,

Beginning Monday, November 30th, JMS will be kicking off a program called **Morning Help**. The goal of this program is to offer help to our students in completing assignments, with assistance from members of our teaching staff. Our vision is to have students who possibly struggle with assignment completion experience more success by providing this opportunity. Students who participate must exhibit successful student behavior which would include promptness, preparedness, and conducting themselves in a positive manner. **Morning Help** is open to all students and is not a substitute for 7th hour; instead, it is another way we wish to support our students individually in obtaining the highest level of achievement possible. It should not be viewed as the only time and place homework is completed, but rather a supplement to efforts at home. The important details are as follows:

- | | |
|---------------|---|
| Who: | Any JMS student |
| What: | Help with assignment completion guided by teachers
(computers will be available for work on research, PowerPoint, Excel) |
| When: | Monday through Friday in the morning from 7:15-7:53 (Must check in before 7:25) |
| Where: | Media Center |
| Why: | Increase student achievement and promote success! |

We are excited about offering this service to our students and anticipate great success.

Educationally yours,

David P. Lavender
Principal
Jefferson Middle School
